TRENDIES

The background is a complex, monochromatic geometric composition. It features a dense field of overlapping, irregular polygons in various shades of gray, creating a textured, crystalline effect. A prominent 3D cube is positioned in the lower-left quadrant, with its top and side faces visible. The top face of the cube is rendered with a grid of small squares, while the side faces show a more fluid, organic pattern. The overall aesthetic is modern and architectural.

TRADITION

A black and white photograph of classical columns. The columns are fluted and have a decorative base. The text 'BALMAIN DE BALMAIN' is repeated four times in white, bold, sans-serif font, centered over the columns. The first two lines are in a larger font size than the last two lines.

A black and white photograph of classical architecture. The image shows a series of columns and ornate capitals. In the foreground, two columns with fluted shafts are topped with highly detailed, acanthus-style capitals. Above these, a decorative entablature features two lion heads (telamones) as acroteria. The background shows more columns and intricate carvings, including a reclining figure in a niche. The overall composition is symmetrical and emphasizes the grandeur and detail of the classical style.
